**Do you provide food and drink for the children?**

We aim to provide nutritious food, snacks and drinks to children in order to promote a healthy lifestyle and encourage positive food habits. The weekly menu will be displayed at the service, and we welcome suggestions from both children and parents. Occasionally, special foods or treats may be served as part of cooking experiences, special events or celebrations. If your child has any special requirements, please discuss them with Sherpa Kids staff.

**What if my child has medical conditions or requirements?**

At the time of enrolment, parents/guardians must advise the program manager of any existing medical conditions such as allergies, anaphylaxis, diabetes or asthma. You will also need to indicate if there is any medication to be administered to your child during any session of care. Sherpa Kids only administers emergency medication.

You will need to discuss the specifics with Sherpa Kids staff. In some instances, Medical Management Plans and Medication Forms need to be completed.

You will also need to supply all medication in its original bottle with your child's name, appropriate dosage, frequency, date of dispensing and use-by date.

Thank you,

Sherpa Kids Canada
